SUMMARY

I am currently doing an internship at Creative IT Institute and learning backend development with Node.js. I am boosting my frontend skills and learning more deep JavaScript. Above all, I am always ready for you.

BEST PROJECT'S

1. E-COMMERCE WEBSITE

This project is made by me using JavaScript React.js Redux Firebase Node.js technology. Fully functional + responsive.

Git link : <https://github.com/antor94/Nex-ton.git>

2. FIREBASE NOTE APP

This is a Firebase project where user create an account to login to-do app & create delete pin update there to-do

Git link : <https://github.com/antor94/firebase-login->

3. JAVASCRIPT TEAM PROJECT

This project was completed by two members of Mile Crete for a competition.

Git link <https://github.com/antor94/Team-Project.git>
